Declass Review by NIMA/DOD

M/EB 539/63
30 December 1963
Copy 1

MEMORANDUM FOR: Chief, Military Division, OCI

25X1A

ATTENTION: [REDACTED]

THROUGH: Chief, Requirements Branch, Reconnaissance Group, CGS

FROM: CIA/PID (NPIC)

SUBJECT: AMM Electronics Search of Pechenga Area

REFERENCES: (a) Requirement C-CI-3-80,870
(b) CIA/PID Project C 1785-63

25X1D
25X1D

1. In response to your requirement dated 13 December 1963, a search of the area within a 50 nautical mile radius of Pechenga Airfield was performed to determine the existence of AMM electronic facilities on [REDACTED]. Results of the search were inconclusive due to the cloud cover. No suspect AMM facilities were identified in the cloud-free area.

25X1D

2. The only usable photography was limited to a total of [REDACTED] which include [REDACTED]. A comparison of all the cultural features within the cloud-free areas between the [REDACTED] missions was made to determine any expansion between [REDACTED]. This comparison provided little or no evidence toward identifying any AMM electronic facilities.

25X1D
25X1

3. The attached enclosures delineate the approximate undercast conditions within the search area. The photo quality of [REDACTED] varied from good to excellent within the cloud-free portions, and probably of sufficient quality and scale to negate an AMM electronics facility if it were of the same magnitude as those located at Sary Shagan.

25X1A
25X1

4. The photo analyst on this project was [REDACTED] and he may be contacted on extension [REDACTED] should you have any further questions concerning this project.

25X1

5. This project is considered to be complete.
